## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 & 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear whether applicant is claiming a method/process or apparatus.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1 and 2 are rejected under 35 U.S.C. 101 because it is unclear whether applicant attempting to claim a method of play or apparatus. It is not clear as to the statutory class applicant intends, as the claims are not clearly directed to an apparatus or method/process.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1 & 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hunter (352).

Hunter discloses a craps Game With Progressive Jackpot.

Regarding claim 1

Hunter teaches a casino game (see abstract) which indicates possible outcomes (see col. 9, lines 27-29), wagering and setting odds for various outcomes (col. 7, lines 65-67, col. 8 lines 1-12 and col. 8, lines 33-54) determining the outcome of dice col. 7, lines 18-25 and distributing payouts (see figure 1).

Regarding claim 2

Hunter discloses a Craps Game (Casino Dice Game) With progressive Jackpot.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bowling (006).

Bowling discloses a Method of Playing A Three Dice Game.

Regarding claim 1

Bowling teaches a dice game which indicates possible outcomes to the players [gamers], sets the odds for each outcome, allows players to wager on outcomes, designates a shooter, notes/marks the outcome rolled and resolves bets (see figures 1-3 & abstract).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over

Bowling as applied to claim 1 above, and further in view of Hunter (352).

Regarding claim 2

Bowling fails to explicitly teach a jackpot feature to his game. Hunter discloses a Craps Game (Casino Dice Game) With progressive Jackpot. It would have been obvious to one of ordinary skill in the art at the time the

Art Unit: 3711

invention was made to include a progressive feature to Bowling's Dice Game to provide more winning opportunities and to add excitement for the players.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
